## **Agenda Announced for 2013 Alternative Clean Transportation Expo**

*ACT Expo to highlight alternative fuel and clean vehicle fleet deployment success stories, technology updates, and the expansion of fueling infrastructure solutions*

**March 6, 2013 – Santa Monica, Calif.** – Gladstein, Neandross and Associates (GNA), organizers of the 2013 Alternative Clean Transportation (ACT) Expo, today released the agenda for the three-day event taking place June 24 – 27 at the Walter E. Washington Convention Center in Washington, D.C. Sponsored by more than 150 leading OEMs, fuel suppliers and vehicle technology providers, ACT Expo is North America's largest clean vehicle technology event dedicated to all alternative fuel types—electric, hybrid, hydrogen, natural gas, propane autogas, and renewable fuels. To view the ACT Expo 2013 agenda in its entirety, visit [www.actexpo.com](http://www.actexpo.com).

ACT Expo 2013 will feature a content-rich agenda packed with dynamic presentations, breakout sessions, an expo hall, ride and drive event, off-site tours, and peer-to-peer networking events. The industry's leading experts and policy makers will convene in plenary sessions to share their knowledge and opinions on the future of the ever-diversifying transportation sector. Specialized breakout sessions will allow end-users to view new innovations and product offerings, explore new opportunities and project development strategies, and interact with panelists to gain firsthand insights.

Topics to be discussed at ACT Expo 2013 include:

- End-user case studies from leading fleets
- Latest OEM technologies and aftermarket solutions
- Rental, leasing, and employee program options
- Fueling infrastructure solutions of all sizes
- Fuel production, supply, and procurement strategies
- Forward fuel pricing projects and commodity markets
- Financial modeling to achieve positive ROIs
- Total cost of ownership case studies
- Industry trends and key market drivers in the years ahead
- Important public policy considerations

ACT Expo will host some of the top names and leaders across the alternative fuels and clean vehicle technologies arena. Keynotes and speakers will be announced soon.

In addition to plenary and breakout sessions, the 2013 ACT Expo will also provide training opportunities on alternative fuels, fleet management and procurement processes; technology and vehicle displays in the expo hall; and a ride-and-drive with the latest clean light-, medium- and heavy-duty vehicles.

ACT Expo will attract thousands of decision-makers interested in alternative fuel vehicles and exploring advanced technology options to allow an alternatively-fueled future to become an everyday reality.

#### **About Gladstein, Neandross & Associates (GNA)**

GNA is a leading North American consulting firm specializing in market development for low emission and alternative fuel vehicle technologies, infrastructure and fuels for both on and off-road applications. GNA provides strategic market analysis and planning, technical assistance, and public affairs and policy support to clients in the private, public and non-profit sectors. For 20 years, GNA has pioneered the nation's largest and most innovative alternative fuel vehicle projects, including the development of several successful clean fuel corridor projects. In addition to its technical consulting practice, GNA hosts two of North America's leading alternative fuel and advanced vehicle technology conferences—the [Alternative Clean Transportation \(ACT\) Expo](#) and the [High Horsepower \(HHP\) Summit](#). GNA maintains two primary offices in Santa Monica, California, and New York, New York. [www.gladstein.org](http://www.gladstein.org)
