## **ACT Expo 2014 Gearing Up to be the Largest Clean Transportation Event in North America's History**

*ACT Expo to co-locate with a range of alternative fuel industry events  
to offer a true one-stop clean transportation experience.*

SANTA MONICA, Calif.—March 21, 2014—[Gladstein, Neandross and Associates](#) (GNA), organizers of the [2014 Alternative Clean Transportation \(ACT\) Expo](#), today announced that the four-day conference and expo will take place in tandem with multiple alternative fuel and advanced vehicle technology events. More than 3,500 transportation leaders—fleets, technology companies, OEMs, fuel providers, infrastructure developers, and policymakers—will convene May 5-8 at the Long Beach Convention Center, making ACT Expo 2014 the largest clean transportation conference in North America's history.

“Our goal is to provide fleet managers with a one-stop shop to learn about the full spectrum of available AFV options—including electric, hybrid, hydrogen, natural gas, propane autogas, and renewable fuels—so they can develop their own customizable clean fleet plan,” said Erik Neandross, CEO at GNA. “In teaming up with leading sustainable transportation organizations, ACT Expo will offer four incredible days of educational sessions, off-site tours, hands-on product demonstrations, unparalleled networking opportunities, and much more. If you are considering alternative fuels for your fleet operations, this is the one show you need to attend.”

The following industry events will be held in conjunction with ACT Expo 2014:

- [NGV Global 2014: 14th Biennial Conference & Expo](#) | May 5-8
- [Lead the Way Propane Autogas Summit by the Propane Education & Research Council](#) | Monday, May 5
- [Trucking Efficiency Workshop by North American Council for Freight Efficiency & Carbon War Room](#) | Monday, May 5
- [California Hydrogen Business Council Spring Summit](#) | Monday, May 5
- [Women in ACT Summit](#) | Tuesday, May 6
- [US EPA SmartWay Program Workshop by Penske](#) | Tuesday, May 6

- [Alternative Fuel Toolkit for Local Governments, Fleet Managers, and Employers Workshop](#) by the South Coast Air Quality Management District | Wednesday, May 7
- [Future of Fuels by BSR](#) | Thursday, May 8

ACT Expo 2014 will also include keynote speakers, plenary and breakout sessions, networking events, a ride and drive event, and off-site technical tours. Sponsored by nearly 200 leading equipment manufacturers, technology providers and fuels suppliers, ACT Expo 2014 will host some of the top names and transportation leaders across the alternative fuels and clean vehicle technologies arena. **About Gladstein, Neandross & Associates (GNA)**

GNA is the leading North American consulting firm specializing in market development for low-emission and alternative fuel vehicle technologies, infrastructure and fuels for both on and off-road applications. GNA provides strategic market analysis and planning, technical assistance, and public affairs and policy support to clients in the private, public and non-profit sectors. For 20 years, GNA has pioneered the nation's largest and most innovative alternative fuel vehicle projects, including the development of several successful clean fuel corridor projects. In addition to its technical consulting practice, GNA hosts two of North America's leading alternative fuel and advanced vehicle technology conferences—the Alternative Clean Transportation (ACT) Expo and the High Horsepower (HHP) Summit.
