**Keynotes and Full Speaker Lineup Announced for the co-located
2014 Alternative Clean Transportation (ACT) Expo and NGV Global Conferences**

*Leaders from the sustainable transportation and automotive industries
will speak at North America's largest clean fleet conference*

SANTA MONICA, Calif.—March 26, 2014—[Gladstein, Neandross and Associates \(GNA\)](#), organizers of the [Alternative Clean Transportation \(ACT\) Expo](#), this week announced the keynotes and full speaker lineup for the 2014 ACT Expo and co-located 2014 NGV Global event. Taking place at the Long Beach Convention Center, May 5 to 8, the co-located conferences will bring together more than 3,500 industry stakeholders, making this the largest clean transportation conference in North America's history.

Nearly 200 alternative fuel and clean transportation industry leaders will present throughout the conference program on the key advancements driving the future of sustainable transportation around the world. Attendees will hear the latest updates on alternative fuels and clean vehicle technologies—including electric, hybrid, hydrogen, natural gas, propane autogas, clean diesel, and renewable fuels. [View the full conference agenda.](#)

Market trends—including innovative fueling technologies, dual-fuel options, new vehicle and engine technologies, and policy initiatives—will be highlighted throughout the four-day event. With a focus on peer-to-peer learning, case studies will be presented by leading fleets—including:

- Ryder System
- Saddle Creek Transportation
- San Diego Gas & Electric Company
- Southern California Gas Company
- Sysco Food Services
- The Kroger Co.
- United States National Park Service
- United States Postal Service
- University of California San Diego
- UPS
- Waste Management
- Whittlesea Bell Transportation

Dennis Slagle, head of commercial operations for the Volvo Group's truck brands (Mack, Volvo, Renault, and UD) in the Americas, will deliver the opening keynote address on Tuesday, May 6. Slagle will share his company's latest sustainability advancements for heavy-duty trucks as well as buses, construction equipment, and marine and industrial engines. Leading into the general session on Thursday, **Ronald L. Litzinger**, president of utility-giant Southern California Edison, will share how his organization is advancing the electric drive industry, starting with the company's successful deployment of EV technologies in its own utility fleet.

The 2014 ACT Expo and NGV Global conferences will also provide off-site technical tours to local alternative fuel vehicle and infrastructure projects; fueling, equipment, technology and vehicle displays in the massive expo hall; and a ride-and-drive with the latest light-, medium- and heavy-duty alternative fuel and clean technology vehicles.

Sponsored by more than 175 leading equipment manufacturers, technology providers and fuels suppliers, the 2014 ACT Expo and NGV Global conferences will host some of the top names and transportation leaders across the alternative fuels and clean vehicle technologies arena. About Gladstein, Neandross & Associates (GNA)

GNA is the leading North American consulting firm specializing in market development for low-emission and alternative fuel vehicle technologies, infrastructure and fuels for both on and off-road applications. GNA provides strategic market analysis and planning, technical assistance, and public affairs and policy support to clients in the private, public and non-profit sectors. For 20 years, GNA has pioneered the nation's largest and most innovative alternative fuel vehicle projects, including the development of several successful clean fuel corridor projects. In addition to its technical consulting practice, GNA hosts two of North America's leading alternative fuel and advanced vehicle technology conferences—the Alternative Clean Transportation (ACT) Expo and the High Horsepower (HHP) Summit. www.gladstein.org
